

**WILDCAT AND SAN PABLO CREEKS
GENERAL INVESTIGATIONS**

PROJECT LOCATION AND DESCRIPTION: The study area is located 14 miles northeast of San Francisco, California in the northwest portion of Contra Costa County, on the southeastern side of San Pablo Bay. Wildcat and San Pablo Creeks are adjoining basins lying northeast of Berkeley in the Berkeley Hills-San Pablo Ridge area. An authorized flood control project known as The Wildcat/San Pablo Creeks Phase I project was completed in 1995. Reach 2, located within the City of San Pablo, was not constructed at that time due to concerns about economic justification, and was subsequently placed in the deferred status. Recent flow/frequency projections, and new Federal Emergency Management Agency floodplains suggest that Reach 2 may now be economically justified for a new flood control project or a watershed study.

<u>TOTAL FUNDING:</u>	<u>RECON</u>	<u>FEASIBILITY</u>
TOTAL COST:	\$ 100,000	\$2,000,000
FEDERAL COST:	\$ 100,000	\$1,000,000
NON-FEDERAL COST:	\$ 0	\$1,000,000
 TOTAL FEDERAL COST THROUGH FY04:	 \$ 100,000	 \$ 10,000
FISCAL YEAR 05 BUDGET:	\$ 0	\$ 100,000
COST TO COMPLETE:	\$ 0	\$ 890,000

FY 04 AND 05 ACCOMPLISHMENTS: Complete Project Management Plan, sign Feasibility Cost Sharing Agreement, and initiate Feasibility Phase

ISSUES AND OTHER INFORMATION: The project 905(b) Reconnaissance Report was approved by Corps Headquarters in the 1st Quarter of FY 04.

CONGRESSIONAL INTEREST: 7th District, Rep. George Miller

DISTRICT: San Francisco
